

**A condensate of the 40-point Technical Audit. 14 checks you can run yourself on a viewing.  
The other 26 need instruments.**

## LOT 00: GENERAL ENVIRONMENT

☐ Balcony Drainage: Pour water test. Does it pool or drain? (Waterproofing risk).

## LOT 01: ELECTRICAL (The Fire Risk)

☐ RCD (Trip Switch) Test: Does the safety cut-off actually work when the "Test" button is pressed?

☐ Exposed Wiring: Check behind the washing machine and under kitchen plinths.

☐ Earthing: Is the water heater earthed, and can the seller produce documentation?

⚠ Loose neutral: infrared scan of the fuse box. Hotspots = fire risk. Instrument required. This one is ours.

## LOT 02: PLUMBING & HVAC (The Silent Killer)

☐ Pressure Drop Test: Close all taps. Watch the water meter for 5 minutes. Movement = Hidden Leak.

☐ Grout Integrity: Are shower tiles hollow? (Water behind the wall).

☐ Angle Valves: Are the isolation valves under the sinks rusted/seized? (If a pipe bursts, can you stop it?)

☐ A/C Delta-T: Measure air temp at intake vs. output. (Difference <10°C = Low Freon/Broken).

☐ Boiler Anode: Has the sacrificial anode been checked in the last 2 years? (Prevents tank corrosion).

☐ Radiator Sludge: Are the bottoms of radiators cold? (System blockage).

⚠ Mold mapping: moisture meter on cold walls (thermal bridging). Instrument required. This one is ours.

## LOT 03: JOINERY & CLOSINGS (The Envelope)

☐ Window Seals: Paper test on rubber gaskets. (Air leaks = High heating bills).

☐ Roller Shutters: Strap condition check (Frayed straps snap unexpectedly).

☐ Lock Core: Is the cylinder flush with the door? (Protruding cylinder = Snapping risk).

☐ Safety Door Alignment: Does the bolt engage fully without lifting the handle?

This extract covers LOT 00 through LOT 03. The full Technical Audit covers LOT 00 through LOT 05.

**Most Athens resale stock is 30 to 50 years old. Fresh paint is not a renovation; it is a cost deferred to you. This checklist is not paranoia. It is CapEx you can see before you sign.**

I am Arnaud, your Technical Partner on the ground. **I don't collect rent. I protect the concrete.** French technical standards, applied to the Greek reality, so your asset performs instead of surprising you.
